About the Little Chute Windmill

The Little Chute Windmill, Inc. is a 501 (c)(3) nonprofit organization that operates as an authentic Dutch windmill and heritage center as a tribute to the Midwest's Dutch heritage. The windmill is used to educate individuals, schools, and groups about Dutch heritage and traditions, as well as the significance of windmills in the Netherlands.

The windmill is an authentic 1850s design based on the windmills in the Noord Brabant Providence of the Netherlands, home to most of the Dutch immigrants in the area. The windmill was designed and built by the Verbij Company in the Netherlands where it was disassembled, shipped, and rebuilt in Little Chute in 2012.
